To Whom It May Concern,

I am writing this to recommend Juhn Lie Sidmanao, a first-year Bachelor of Science in Information Technology (BSIT) student at Pamantasan ng Lungsod ng Valenzuela, for any position or opportunity related to Cybersecurity in your company.

As his upperclassman in the same program, I have had the opportunity to observe Juhn Lie's dedication and enthusiasm toward learning about information technology and security. He has shown great interest in understanding how systems and networks can be protected from digital threats. Despite being a first-year student, he demonstrates initiative, curiosity, and a strong willingness to learn.

Juhn Lie is also responsible, and hardworking qualities that are essential for anyone pursuing a career in cybersecurity. His eagerness to develop his technical skills and his commitment to continuous improvement make him a promising student in the field of IT.

I am confident that Juhn Lie Sidmanao will be an excellent fit for your company. He has both the passion and the potential to grow into a capable cybersecurity professional.

Best regards,

*Maceda, Klint John*
